

Impala

BY FLOCKTEX INDUSTRIES LTD

LUXURY LEATHER FEEL

EASY CLEAN

PROPERTIES

- Wonderful soft “leather” feel.
- Soft and flexible Leather feel
- Fabric is “long wearing” (has good life expectancy)
- Excellent Abrasion specifications (over 200,000 Martindale cycles).
- You will note that the fabric has a stretch effect - widthwise.
- This fabric is really “EASY CARE” it is easy to clean (loose covers made from the fabric can be washed in a washing machine and dried in a tumble drier) and “Anti Stain” - most household stains can be easily cleaned.
- Machine washable and Tumble dryable.

Care of Impala Leather Feel fabric:-

General dirt and stains

1. Firstly, excess liquid should be blotted with an absorbent paper or cloth so as to remove most of the liquid from the surface. After this, rub the fabric gently with white paper or a white cloth to absorb the remaining humidity.
2. Using a clean white cloth dampened with just plain water, gently rub the area of the stain using small circular motions. Do not soak the fabric in the solution, as excessive soaking can cause damage. An effective way of controlling the amount of liquid used is to use an atomizer. More persistent stains may need a solution of 95% water and roughly 5% soap (a gentle detergent is recommended).
3. Allow the cleaned area to dry completely and then gently brush or vacuum with a soft brush the area using strokes in the direction of the pile of the fabric.
4. More persistent stains may need a second treatment **after allowing the fabric to dry**. Stains of certain types of ball point pen, grease etc. may not come out easily using the above treatment, and cleaning with wet baby wipes will then usually help.

We strongly advise attending to stains, as soon as possible

WASHING (loose covers)

Loose covers made from our fabric can be washed in the washing machine at a maximum temperature of 40 degrees using neutral detergents only.

Do not use bleach.

Do not squeeze or wring the fabric.

Avoid drying in the sun.

WE DO NOT RECOMMEND DRY CLEANING

We recommend tumble-drying.

Iron only on the rear side, at a maximum temperature of 110°C

After ironing, freshen up the fabric by using a soft brush.

Roll length:	Approx. 40 meters
Width:	140 cms
Weight per square meter:	±475gms
Weight per running meter:	±665 gms
Composition:	52% Acrylic, 26%Polyamide, 15% Polyester, 7% Cotton
Martindale abrasion BS5690	Whereas requirement = 20,000, our <i>Impala</i> quality gives more than 200,000 cycles (excellent)
Colour change at 3,000 cycles	Grade 4 (good)
Tear Strength BS4303	Warp & weft – more than 24N
Tensile Strength BS2576	Warp 420N Weft 400N
Seam Slippage BS3320	Warp 4-5 mm Weft 4-5 mm
Colour Fastness to light BS 1006	5/6 (excellent)
For light colours	4/5
Colour Fastness to rubbing BS1006	Wet 4 Dry 4/5 (excellent)
Resistance to scuffing (FIRA)	Dry more than 120 Wet more than 30
Flame retardant – if requested (special treatment to pass BS5852 part 1 & EN 1021-1) Smoldering cigarette test Butane flame test no. 1	Pass Pass
